

Initial Plan

Wonkwon Lee

9888038

Initial Plan Stages

- Initial Plan
- Plan Submission
- Background Research
 - Reading various materials and dissertations and know what exactly I want to research
- Software/Tool Research
 - Research various softwares related to neural network and decide which one to use
- Setting Software/Tool
 - Setting project related tools on my laptop
- Developing Research
 - Research on dataset. Try to collect dataset from legit website
- Mathematics Midterm Period (Not Confirmed Yet)
- Reading Week (Midterm Revision)
 - Prepare for Mathematics Midterm Test
- Prepare for Seminar
- Seminar (16/11/17)
- Train Research
 - Training the neural network with collected dataset
- Collect Data
 - Test trained network with testing dataset. Collect the result and check accuracy
- Exam Revision
- Exam Period (15/01/18 - 01/02/18)
- Result Analysis
 - Analyze the gained data
- Update Result
 - Test with various dataset and check accuracy. Try to improve network to achieve highest accuracy. And analyze the data again
- Prepare for Showcase
- Project Showcase (20/02/18)
- Writing Report
- Report Submission (13/04/18)

Gantt Chart
